- Visits to Parliament.

**Value Added Courses:**

- International Business Law
- Alternative Dispute Resolution (ADR)
- Legal Writing and Drafting

## B.COM

**The Bachelor of Commerce (Affiliated to CCSU)** degree is designed to provide students with a wide range of managerial skills, while building competence in a particular area of business. The degree also enables comparison with other business specializations.

Most universities, therefore, plan the degree such that in addition to their major, students are exposed to general business principles, taking courses in accounting, finance, economics, business management, human resources and marketing. Programs often require foundational courses in business statistics and mathematics, and information systems.

Students may have the option to choose a formal academic major, depending on university guidelines. Regardless, a Bachelor of Commerce degree requires students to take the majority of their courses in business-related subjects, including the aside, among of the B.Com Course Outcomes:

### **Value Added Courses:**

- Financial Accounting & Analysis
- Taxation (GST & Income Tax)
- Business Analytics
